

NEW ! PexPolyalloyFittings

WHY USE POLYALLOY CRIMP FITTINGS :

- Just as strong and durable as copper or brass, but withstands aggressive water conditions.
- Resists pitting and scaling for improved long term flow rates.
- Resistant to high chlorine levels and chloramine potable water disinfectants.
- Withstand extreme temperatures and pressure.
- Polyalloy engineered plastic are non-toxic and will not leach contaminants into drinking water.
- Over 10 years proven history in rigorous plumbing environments.
- Can be used in reverse osmosis treated water.
- Polyalloy Fittings are joined using the same crimp methods as brass fittings, using standard pex crimping tools and rings.
- 25 years limited warranty when installed in accordance to CSA B137.5 standard.

* Note : Pipe dope is not to be used with Polyalloy fittings.
